-

WORK EXPERIENCE

Node.js Developer

Digimantra Labs, Mohali, India

June 2023 – Present

- Led the development team using MERN stack technologies to build scalable web applications.
- Utilized Node.js frameworks like Express.js, Fastify, and Nest.js.
- Developed and maintained project plans and schedules, ensuring successful project delivery within scope and timeline constraints.
- Collaborated with cross-functional teams, including design, QA, and product management, for seamless project integration.
- Acted as Project Manager for a client project, handling client communications, development coordination, and quality assurance.
- Facilitated daily internal stand-up meetings and provided weekly updates to the client, ensuring synchronization between teams.

Node.js Developer

Cqlsys Technologies Pvt. Ltd, Mohali, India

January 2023 – June 2023

- Developed websites using HTML, CSS, JavaScript, and jQuery.
- Managed efficient SQL queries and data transport.
- Led research initiatives to explore new technologies and frameworks.
- Mentored team members on JavaScript best practices and design patterns.
- Successfully converted a Java app to Nest.js from scratch, demonstrating proficiency in diverse frameworks.
- Progressed project completion to approximately 60%, with ongoing refinement and enhancements.
- Managed GitLab operations and executed a smooth migration to GitHub for streamlined version control.

Backend Developer

LBM Solutions, Mohali, India

December 2021 – January 2023

- Developed and managed API resources for use across devices.
- Maintained and enhanced existing APIs.
- Experienced in authentication and authorization standards such as OAuth.
- Developed REST applications on modern MVC PHP frameworks like Laravel 9.
- Conceptualized and executed ideas shared within the company, working on projects during leisure time.
- Formulated guidelines for coding standards and optimal GitHub usage within the company, ensuring consistency and best practices.
